

CABLE REEL R-105

Meeting the demands in Harsh Environments

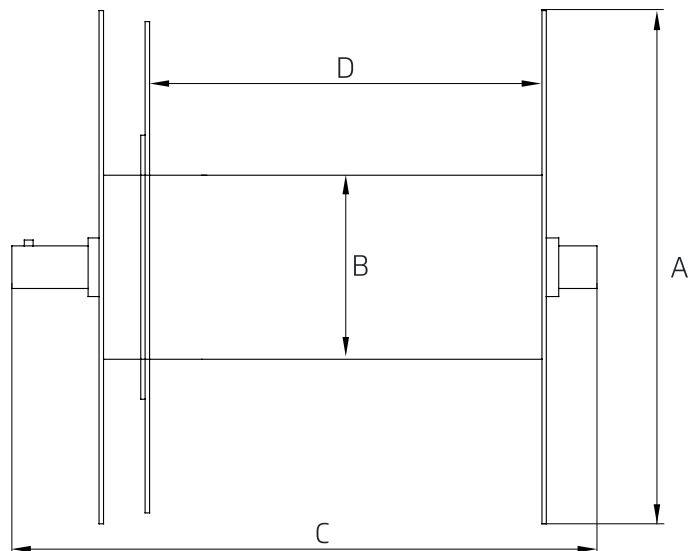

v2.1, 2024-11-21

Micropol has designed the Cable Reel R-105 for meeting the demands in harsh environments. The cable drum is made of sheet metal and comes in the colours green, black and sand, to be adjusted to the environmental challenges. With its lightweight of 3,5kg, it is optimal for carrying long distances attached to our backpack. The cable reel can be adjusted according to our customer's specifications.

Features

- Cable reel for harsh environments
- Can be designed according to customers specification
- Combat proven
- Storage temperature -40°C to +70°C
