DEVELOPED TO CLEAN FIBER OPTIC NETWORKS

Cleaning kit and tools developed to help service technicians to clean fiber optic networks at the best, most reliable way and at the best price. Micropol is your local distributor for Sticklers™ products.

Part number: RK-2021

Product features

- TravelSafe™ self extinguishing cleaning liquid.
- No hazardous substances that require extra paperwork and additional costs in air transport.
- Cleaning fluid to clean glass and plastic optical fiber, POF.
- Non hygroscopic cleaning fluid. (A hygroscopic liquid absorbs moisture from ambient air leading to dirt particles contaminating the liquid. Which can cause scratches on the fiber surface.)
- Refill list for easy ordering of additional items when needed.

Measures Black Bag 240mm x 140mm x 140mm
